

## Race the Pass

1		Seat the students in a circle formation, and position yourself along the circle.
2		Introduce a flashcard and place it in front of you. Pass a ball, balloon, or other object around the circle while having the students say/chant the vocabulary of the flashcard.
3		When the students understand their role, do it again – but this time, stand up, place the flashcard where you were sitting, and (from the outside of the circle) “race” the object as it travels along the circle. Hinder your movement by walking very slowly, crawling, hopping like a bunny or frog, etc.
4		Try and tag the flashcard before the last student places the object on it.
